Dikshya-Paudel

SUMMARY

Software Developer with 2+ years of experience designing REST APIs, integrating third-party services, and building scalable backend systems. Experience in cross-system integrations, automation workflows and enterprise ERP solutions using Python, FastAPI, Django and Frappe with hands-on experience integrating LLM APIs into AI-powered applications.

SKILLS

Languages: Python, JavaScript, C, C++

Backend: REST API Design, API Integrations, Background Jobs

Tools: Git, GitHub, Docker, Linux, VSCode

Databases: MariaDB, PostgreSQL, SQL

Frameworks: Django, Frappe Framework, ERPNext, FastAPI

Integrations: Third-party APIs, Payment gateway, Biometric systems, Cross-system Data Synchronization

EXPERIENCE

Python Software Engineer | Sajeelo Infotech | May 2026 - Jun 2026, Freelancing

- Designed and deployed 10+ REST APIs enabling secure integrations and cross-system data synchronization between business applications.
- Developed a Vehicle Management System with service tracking, billing and spare parts management.
- Built 3+ configurable page components in ERPNext and live publishing workflows, reducing content update time.

Software Engineer (Frappe Developer) | Raindrop Inc. Pvt. Ltd. | September 2024 - April 2026, Full Time

- Developed a construction ERP with 5+ modules covering procurement, labor, projects, and finance workflows.
- Integrated Fonepay payment gateway through REST APIs, handling authentication, payment workflows and transaction synchronization.
- Built a biometric device integration that synchronized attendance records automatically between hardware and the ERP system.
- Collaborated with finance, HR and operations to deliver integrated ERP workflows.

Frappe Developer | AGB Company | August 2025 - Jan 2026, Part Time, Remote

- Delivered spa/service ERP remotely across 2 time zones, built 5+ Python/JS Doctypes for booking and scheduling, reducing errors by ~40%.
- Built ecommerce module front-end in JavaScript/Frappe, and online ordering workflows.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science and Information Technology | Bhaktapur Multiple Campus | 2025

Aspire Leaders Program | Aspire Institute | Dec 2025

PROJECTS

SnapLedger - AI Powered Receipt Intelligence API

- Built an AI-powered receipt intelligence API using FastAPI and Google Gemini Vision to extract structured financial data from receipt images.
- Designed prompts for structured JSON output and asynchronous LLM processing with Redis/arq.[Github Repository](#)

Budget Buddy - Django Expense Tracker

- Built a Django expense tracker with PostgreSQL, Google OAuth and reporting dashboard. [Github Repository](#)

Course Recommendation System

- Recommendation engine using TF-IDF vectorization and cosine similarity (Python, Pandas, NumPy) across 100+ course catalogue.
